PARK BASEL AREA

SPACE WHERE PROGRESS IS MADE

SPACE³

WHERE PROGRESS IS MADE

At Switzerland Innovation Park Basel Area, progress does not come by coincidence. Progress is the core objective, it is created, made possible by a unique ecosystem of entrepreneurially thinking scientists, a highly qualified work force, universities, know-how and visions. Park Basel Area builds bridges between research organizations and economic partners and fosters an inspiring community atmosphere among residents.

SPACE FOR ENTREPRENEURSHIP

Infrastructure: By offering turnkey labs and offices, conference facilities and ample coworking and communal space, Park Basel Area creates the ideal environment for ideas to grow and flourish.

SPACE FOR INNOVATION

Service portfolio: Thanks to the target-oriented scope of services, support and coaching, residents at Park Basel Area can focus on what is key for them: perfecting their ideas until they are ready to market.

SPACE FOR ADVANCEMENT

Ecosystem: As a globally leading life sciences cluster, the Greater Basel Area is the perfect breeding ground for revolutionary developments. Park Basel Area gives its residents every opportunity to access the various resources of this dynamic hotspot.

FOCUS AREAS

PRECISION MEDICINE

Customized healthcare, taking advantage of digitalization in combination with health-oriented life sciences and biomedical engineering.

HEALTH-ORIENTED LIFE SCIENCES

Life sciences innovations with a major focus on therapeutics and diagnostics.

BIOMEDICAL ENGINEERING

The interface between medicine and natural sciences with the objective to improve medical technologies.

BASELAUNCH

This 15-month accelerator program is specifically tailored to the needs of healthcare start-ups. It provides handpicked ventures with access to non-dilutive funding, industry access, expert knowledge and state-of-the-art infrastructure, and connects them to one of the most dynamic biotech and pharma ecosystems in Europe. Entrepreneurs with breakthrough innovations in therapeutics or game-changing ideas and projects in diagnostics, medtech and related fields can apply. Applicants accepted for the final phase will receive a grant of up to 250,000 CHF, along with office and laboratory space at the Switzerland Innovation Park Basel Area. The program is backed by five industry leaders – Johnson & Johnson Innovation, Novartis Venture Fund, Pfizer, Roche and Roivant Sciences – as well as by other public and private partners.

JUMP-START YOUR BUSINESS

You have a disruptive and courageous business idea within precision medicine, health-oriented life sciences or biomedical engineering.

We have the ecosystem for your project to come to life, pick up momentum and truly make a difference.

BASEL – THE PLACE TO BE

Park Basel Area is located at the heart of Europe's leading life sciences cluster. The Greater Basel Area prospers thanks to a unique combination of top-grade universities and research organizations, start-ups, highly innovative SMEs and headquarters of leading global players.

Yet Basel is more than a great place to work: located in the tri-country area where Switzerland borders France and Germany, the vibrant city with its international ambience is perfectly suited to welcome talents from all over the world.

LET YOUR IDEA FLOURISH

The Park Basel Area facilities currently include 6,000 square meters of private and shared innovation space including turn-key labs, offering the ideal environment for engineers, scientists, research groups or spin-offs.

Take the driver's seat now and contact us to join our exceptional, dynamic, and innovative ecosystem.
